

# dMEV

Our compact dMEV range of fans measure no more than a mini tablet device, meaning they can be wall or ceiling mounted without becoming intrusive.

Our fans utilise market-leading, high efficiency EC motor technology, allowing them to operate at low noise levels and low running costs.

- Cost effective solution for Planned Maintenance Schemes
- Aesthetically pleasing, popular with tenant panels
- Low cost, low energy, low maintenance
- Available with an optional humidistat
- Low running costs, from as little as 17p a year!
- Extremely low noise levels, whisper-quiet for occupants
- Continuous background ventilation to prevent moisture building up
- 5 year warranty: 1 year parts and labour, remaining years parts only.

## The NA Range of Single & Twin Speed Extract Fans

The NA range of Single and Twin Speed axial fans have been specifically designed to ventilate small rooms such as toilets, bathrooms, shower rooms, utility rooms and kitchens and are ideal for wall, ceiling or panel installation. The units extract directly to outside or through a short length of ducting. The twin speed fans can also be window mounted.

- Easy maintenance
- Low running costs
- Options available include; standard, humidistat, sensor and overrun timer
- 1 year warranty
